WORK

UX Designer

SITA Aero • September 2021 - Present

Working as part of the UX Practice. Taking part in developing a design system that brings consistency to all SITA products. Working closely with Product Owners and Product Managers to optimise products making them more user friendly. This includes creating, personas, using various techniques for quantitative and qualitative research, performing usability testing, wireframing and delivering interactive prototypes.

Laboratory Assistant

University of Surrey • January 2020 - May 2021

Assisting students during laboratory activities in relation to various subjects - Parallel Computing, Operating Systems, Programming Paradigms. Expanded my knowledge about scheduling algorithms in regards to multithreaded programming.

Database Engineer

Hewlett Packard Enterprise • June 2017 - September 2018

Remotely troubleshooting servers within datacentres using secure connections. Establishing effective client relationships by providing technical support. Analysing system logs to investigate server problems greatly improved my analytical skills.

CERTIFICATES

Certified Scrum Master (CSM®) • Scrum Alliance, Inc

Foundation of UX Design • Google

UX Design Process • Google

Front-End Web UI Frameworks • Hong Kong University
